

Alif Ahmad Mukhtar Darma Hidayat

Frontend Engineer • Next.js / React Native / Laravel

Probolinggo, Indonesia | +62 85157712027 | alifahmadmukhtar@gmail.com | [Linkedin](#) | [Portfolio](#)

SUMMARY

Frontend Engineer with experience developing scalable web and mobile applications using React, Next.js, React Native, and TypeScript. Skilled in building reusable UI components, integrating APIs, optimizing application performance, and delivering production-ready features in agile environments. Experienced collaborating with cross-functional teams across startup and project-based development while leveraging modern development tools and AI-assisted workflows to improve productivity and software quality.

TECHNICAL SKILLS

Languages	: JavaScript, TypeScript, HTML5, CSS3, SQL, PHP
Front-End	: React.js, Next.js, React Native, Vite, Tailwind CSS, Shadcn UI, Material UI, Chakra UI
State & Data	: Zustand, Redux Toolkit, TanStack Query (React Query), SWR, React Hook Form, Zod
Back-End & API	: Laravel, Express.js, REST API, Axios, Supabase
Database	: MongoDB, MySQL, PostgreSQL
Tools & DevOps	: Git, GitHub, GitLab, Vercel, GitHub Actions, Figma, VS Code, AI Coding Assistants
Optimization	: SEO Optimization, Web Performance Optimization, Responsive Design

EXPERIENCE

Frontend Engineer

PT Node Solusi Teknologi (*Jakarta*)

Nov 2025 – May 2026

- Developed and maintained 4+ web-based systems, including RMS, DMS, Backoffice, and Company Profile platforms used for internal operational workflows across multiple clients.
- Built scalable and responsive user interfaces using React.js, Next.js, TypeScript, Tailwind CSS, Shadcn UI, Material UI, Redux Toolkit, Zustand, and TanStack Query.
- Integrated REST APIs and implemented efficient data fetching, caching, and state management to improve application performance and user experience.
- Collaborated with cross-functional teams of 8–20+ members, including Product Managers, Backend Engineers, QA Engineers, and UI/UX Designers, in agile development environments.
- Optimized website performance, SEO, and responsiveness while performing bug fixing and feature enhancements across multiple projects.
- Utilized GitHub for version control, code reviews, and team collaboration to maintain code quality and streamline development workflows.
- Wrote clean, reusable, and maintainable TypeScript code following modern frontend development best practices.

Freelance Frontend Programmer

PT AZlogistik Dot Com (*Surabaya*)

Nov 2025

- Built and maintained a marketplace web app with React.js, Next.js, Zustand, React Hook Form, and Tailwind CSS.
- Translated 15+ Figma designs into responsive, pixel-perfect, and cross-browser compatible user interfaces optimized for desktop and mobile devices.
- Integrated and consumed REST APIs, handling data fetching, form validation, and state management to support core marketplace operations.
- Collaborated with stakeholders to deliver production-ready features while ensuring code quality, responsiveness, and a consistent user experience across the platform.

Fullstack Developer

Filkom Universitas Brawijaya (*Malang*)

May 2025 – Sept 2025

- Collaborated with a teammate to develop a web-based information system for PAUD Mawar Tlogomas, as part of a community service program with Universitas Brawijaya.
- Developed an admin dashboard for managing 100+ student and alumni records using Next.js, TypeScript, MongoDB, and Chakra UI.
- Key features include: student & alumni data management, teacher/parent account creation, activity gallery, statistical dashboards, and landing page.

Frontend Web Developer

Feb 2024 – July 2024

PT. Aksamedia Mulia Digital (*remote*)

- Developed and maintained LMS features for a platform serving 2,000+ active users using React, Vite, TypeScript, Chakra UI, Axios, SWR, and Zustand.
- Contributing to the development of a design system used by the front-end team, including implementing new components and updating existing ones.
- Collaborated with backend and design teams to implement UI accurately from design specs.

EDUCATION

Universitas Brawijaya

2021 - 2025

Faculty of Computer Science; Major in Information Technology

Malang, Indonesia

- **Cumulative GPA:** 3.64/4.0
- **Thesis :** Design and Development of a Shortest Route Planning Information System for Distribution Management and Field Tasks of Employees Using ReactJS (Case Study: PT Nusantara Network)
- **Relevant Coursework:** Pengembangan Aplikasi Web; Pengembangan Aplikasi Mobile; Pemograman Basis Data

ADDITIONAL

Selected Projects:

- **Paud Connect** – Education System | Role : Fullstack Dev | [view more](#)
- **NusantaraNet** – Distributor task management & route planner | Role: Fullstack & Mobile Dev | [view more](#)

Certificate:

- **Frontend Engineer** – Maganghub 2025 | [view certificate](#)
- **React App Developer** – IDCamp 2023 | [view certificate](#)
- **Web Fundamentals with React** – Dicoding | [view certificate](#)
